Product Description

K3G097-BK34-65 ebmpapst 97mm 26VDC 344W 4040RPM 15.2A 70dB(A)
653.3CFM IP44 EC axial fan

The K3G097-BK34-65, an EC centrifugal fan by ebm-papst, is engineered for automotive cooling systems. It features a 26 V DC motor, 4040 RPM speed, 0.34 kW power consumption, 1105 m³/h air flow, 526 Pa pressure increase, and 76 dB(A) noise level. Weighing 2.2 kg, with IP44/IP24 KM protection and a 40,000-hour lifespan across -40°C to +85°C, it offers high efficiency (45.5%) and PWM/LIN speed control, making it ideal for demanding ventilation tasks.

Technical Specifications

Attribute	Value
Model	K3G097-BK34-65
Manufacturer	ebm-papst
Voltage Rating	26 VDC
Operating Voltage	16 ~ 32 VDC
Fan Speed	4040 RPM
Power Rating	344 W
Current Rating	15.2 A
Operating Temperature	-40 ~ 158°F (-40 ~ 70°C)
Dimensions	97 mm
Noise Level	70 dB(A)
Air Flow	653.3 CFM
IP Rating	IP44
Subcategory	EC axial fan
