

## THB1724BG-GSR Delta

Brand: Delta

SKU: THB1724BG-GSR

Category: DC Axial Fans

URL: <https://www.fansco.com/item/thb1724bg-gsr-delta/>

Contact: [sales@fansco.com](mailto:sales@fansco.com)

## Product Description

THB1724BG-GSR Delta 172×51mm 24VDC 5.20A 447.32CFM 5900RPM  
68.8dB(A) Ball Bearing 4 Wire Leads IP56 axial fan

## Technical Specifications

| Attribute         | Value                                                                         |
|-------------------|-------------------------------------------------------------------------------|
| Model             | THB1724BG-GSR                                                                 |
| Manufacturer      | Delta Electronics                                                             |
| Dimensions        | 172x51 mm                                                                     |
| Voltage Rating    | 24 VDC                                                                        |
| Current Rating    | 5.20 A                                                                        |
| Air Flow          | 447.32 CFM                                                                    |
| Fan Speed         | 5900 RPM                                                                      |
| Noise Level       | 68.8 dB(A)                                                                    |
| Bearing Type      | Ball Bearing                                                                  |
| Condition         | New                                                                           |
| Country of origin | China                                                                         |
| Fan Type          | DC                                                                            |
| Features          | Auto Restart<br>Locked Rotor Protection<br>Locked Rotor Sensor<br>PWM Control |
| Material Blade    | Plastic                                                                       |
| Material Frame    | Metal                                                                         |
| Number of blades  | 7                                                                             |
| Termination       | 4 Wire Leads                                                                  |
| Subcategory       | DC axial fan                                                                  |
| IP Rating         | IP56                                                                          |
