Product Description

The KAKU KA2208HA2-4 is a large 222x222x80mm AC axial fan designed for robust cooling and ventilation in industrial electrical cabinets, ovens, and other multi-platform applications requiring high airflow. Operating on a 220V to 240V AC power supply at either 50Hz or 60Hz, this fan draws approximately 0.30A (50Hz) / 0.26A (60Hz) of current, consuming 38W (50Hz) / 35W (60Hz) of power. It achieves rotational speeds of 1400 RPM (50Hz) / 1700 RPM (60Hz), delivering significant airflow and static pressure. Utilizing ball bearings, this model is built for a long operational lifetime of 50,000 hours and features an IP55 rating for dust and water resistance, ensuring reliable performance in demanding environments.

Technical Specifications

Attribute	Value
Model	KA2208HA2-4
Manufacturer	KAKU
Dimensions	222x80 mm
Voltage Rating	220 ~ 240 VAC
Bearing Type	Ball Bearing
IP Rating	IP55
Subcategory	AC axial fan
